COMMODITIES

Experience in grain salvaging is a must for maximum net returns. Our team knows: the markets; fire-fighting techniques; USDA, FDA and OSHA requirements; and the special equipment needed.

FARM/HEAVY EQUIPMENT

Expertise and knowledge in farm and heavy machinery salvaging is imperative to help minimize the loss. With over 45 years of solid experience, Callan offers quick response for assessment of damage figures and immediate contacting of buyers for fast net returns.

MERCANTILE

Our team provides prompt service, verification of inventory, segregation of damage, assessment of loss and damage figures, the contacting of appropriate buyers and fast net returns.

ANYWHERE IN THE WORLD, ANYTIME, CALL CALLAN

When Disaster Strikes

Sooner or later, every business must deal with loss. The causes may vary: natural disaster, fire, flood, hail, theft, or accident, but whatever the cause, there is one constant, undeniable fact—loss is inevitable. **Callan Salvage & Appraisal** can minimize your loss.

I would like to take this opportunity to introduce you to **Callan Salvage & Appraisal Co.**

The most important service we can provide for your company is to minimize the amount paid out on your losses. To accomplish this, we work with the insured to verify inventory, estimate the value of salvage, arrange sales for merchandise and contact appropriate buyers.

Each loss will constitute different needs and services. Over 45 years experience helps us to assess the degree of damage to your greatest benefit. Callan Salvage handles a substantial amount of salvage worldwide consisting of various commodities, as well as mercantile salvage.

Our services are predicated on the principle that integrity and individual attention to each loss is of primary importance. If the loss warrants it, distance is never a problem. However, if the expense of handling the loss would exceed the return to the insurer, we will so advise. If it is advantageous for the insurer not to enter a salvage agreement, that will be our recommendation.

Finally, at the close of our file on a given loss, we provide the adjuster with a summary report detailing the pertinent facts of the loss and an accounting of sales and expenses.

Callan Salvage & Appraisal's performance as a salvor can be substantiated by the numerous insurance companies for whom we have handled losses. We welcome any inquiries and will be pleased to provide you with references.

Anytime, day or night, anywhere in the world, **Callan Salvage & Appraisal** is ready to help you minimize your loss.
